

# Trade Unionists Group

**The UKIP Trade Unionists Group is here**

**Please consider getting involved and helping the men and women that drive forward British industry.**

## **The UKIP Trade Unionists Group aims to:**

- ✓ Offer all jobs to British workers first.
  - ✓ Invest in more training of our youth to meet our future needs, especially STEM subjects.
  - ✓ Increase places for medical training so we can be less reliant on foreign nurses & doctors.
  - ✓ More meaningful apprenticeships to support future growth.
  - ✓ Protect workers rights from Conservative cuts.
  - ✓ Stop the political levy that Labour gets from the Unions
- Ensure our Trade Unions prioritise British workers.

# ISN'T IT TIME WE HELPED BRITISH WORKERS?

For too long British workers involved in traditional industries have been ignored and not treated with the respect they deserve.

The UKIP Trade Unionists Group aims to champion workers rights whilst fighting for better job prospects and job security that so many British workers lack.

With your help and support, we can really make a difference to the many men and women that drive the British economy.

Thank you for your support.

*Gary Legg*
